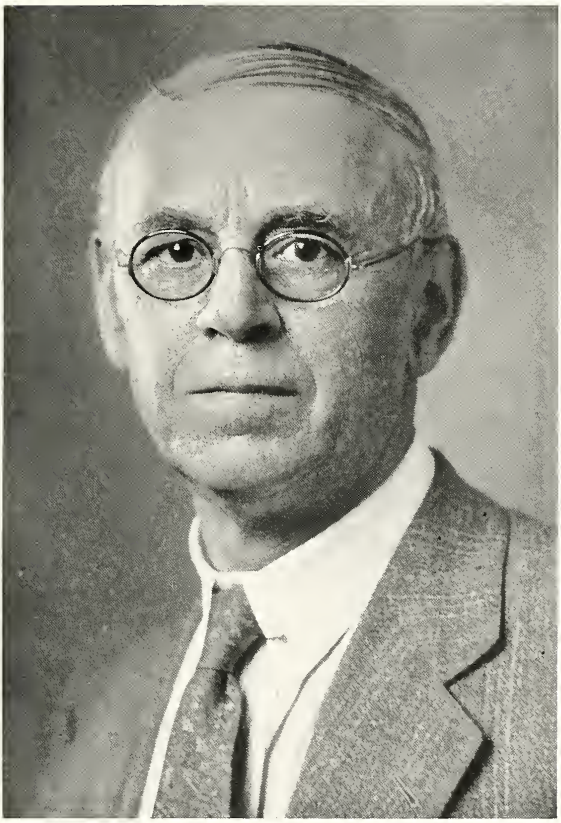
Published by the Students of

Rose Polytechnic Institute

Terre Haute, Indiana

Remember this, - -
That there is a proper dignity and proportion to be observed in the performance of every act of life.

—MARCUS AURELIUS



DEDICATION

Because of his untiring efforts for the good of Rose Polytechnic Institute; because of his wholehearted interests in the welfare of all Rose students; because of the high esteem and appreciation we hold for him, this book is gratefully dedicated to

PROFESSOR A. A. FAUROT

FOREWORD

By the use of written and pictorial material we have endeavored to create for Rose Polytechnic Institute a lasting symbol of the friendships, the accomplishments, and the spirit of the members of the student body of Rose Tech for the past year; to register the traditions, the ideals, the accomplishments, and the desires we hold for the future of our college; to form an important and effective link in keeping Rose close to those who have passed through its portals and in fostering a greater interest in the college for those students planning to enter it; if we have succeeded in protraying with even a fraction of the poignancy of our feelings towards these endeavors, our goal will have been achieved and our purpose accomplished.

IN APPRECIATION

An Annual can never be the work of one individual or even of a few individuals. It can be produced only as the results of cooperative work from many people. We gratefully acknowledge our indebtedness to our Faculty Advisor, Professor O. L. Stock; to the Student Council; to the Rose Technic; to Professor A. A. Faurot; to the Advertisers who helped make this book possible, and to those who in any way have aided the compilation of this book.

CHAUNCEY ROSE

Chauncey Rose was born on the Wethersfield Meadows, Connecticut, December 24, 1794 and died at Terre Haute, Indiana, August 13, 1877. John Rose, his father, was the son of John Rose, who emigrated from the Highlands of Scotland about the year 1700. Mary Warner, his mother, was the daughter of John Warner, of Wethersfield.

His education was limited to a brief attendance of the common schools but he inherited good health and was endowed with energy, courage, a strong intellect and abundant common sense. To this combination of traits was added the habit of self-reliance, bred in him by his father, which is the essential quality of all strong characters and in Mr. Rose was conspicuous.

In 1825 Mr. Rose came to Terre Haute with a capital of $2,000 and engaged in trade. His profits he invested in land adjacent to the town of Terre Haute which, with the increasing population, increased in value and ultimately was incorporated into the city.

Few men have left as many evidences of a humane and philanthropic spirit or have bestowed their charities so wisely. His donations to hospitals, charity, and institutions in and near Terre Haute will make his name be remembered for generations.

HISTORY OF ROSE

Rose Polytechnic Institute was founded in 1874, by Chauncey Rose, as an "Institution for the intellectual and practical education of young men," the corporate name being "The Terre Haute School of Industrial Science."

The first cornerstone laying took place September 11, 1875, at which time the board of managers changed the name of the institution, then located at 13th and Locust, to Rose Polytechnic Institute over the protests of Mr. Rose.

Work was carried on at Rose at its Locust Street site for many years. In 1917 a great need for more room to carry on the work of the institute was felt. Messrs. Anton and Herman Hulman donated a beautiful tract of one hundred and twenty-three acres east of the city on the National road. The first building on this land was constructed in 1921-22 and classes were held in this building in the fall of 1922.

In the spring of 1927 Deming Memorial Hall was completed and furnished in which ample accomodations are provided for fifty-two students.

Rose offers courses in Electrical, Mechanical, Civil, and Chemical Engineering. Although a small school, Rose has an enviable position in the engineering field. The fame of Rose alumni speaks for the quality of the school.

The donors who have made Rose Polytechnic possible are: Chauncey Rose, Josephus Collett, Demas Deming, Susan K. (Heminway) Francis, William S. Rea, James McGregor, Anton and Herman Hulman, the alumni, and many other citizens of Terre Haute.

TO THE CLASS OF 1935

Four years ago under an identical heading I wrote a welcome to you for the Handbook. The second sentence read "Although present business conditions are discouraging, you and your parents have shown your confidence in the value of a college training in preparation for the work which will surely await you when you graduate." Four years have passed and business conditions, while better, are still somewhat discouraging.

The inability of the people of the United States to solve their economic problems and climb back to normal during this period emphasizes the importance, however, of the very factor which you came to college to acquire. The need of skilled leadership has been demonstrated thoroughly. I sincerely hope your work at Rose has developed in you some of the qualities of which leaders are made. While your opportunities to assist in the solution of present difficulties will necessarily be limited, for you must, of course, start at the bottom of the industrial and engineering ladder, yet your college training plus your experiences in the next few years should prepare you for a successful attack on these problems if they recur or, better still, enable you to foresee and prevent them. And this must be the ultimate result if our form of government and our traditions of individual opportunity are to endure.

As you go your various ways we shall watch your progress with pride. We know your accomplishments will add important pages to the record of service which Rose men have made. Throughout your careers remember that you carry a share of responsibility for the reputation of your college and that this reputation will grow as you grow. You leave behind you many true friends who will always be anxious to assist you and who will rejoice in your success.

Sincerely,

Donald B. Prentice

April 26, 1935.

ADMINISTRATION

Donald Bishop Prentice

Donald Bishop Prentice was born at Hartford, Connecticut, on April 27, 1889. He was graduated in 1910 from the Sheffield Scientific School of Yale with the degree of Ph. B. in Mechanical Engineering. For the next two years he was employed with the Briton Company of Hartford, Connecticut. He then became assistant instructor in Mechanical Engineering at Yale and in 1914 was awarded the degree of Mechanical Engineer by Yale. In 1917 Mr. Prentice was appointed assistant professor of Mechanical Engineering at Lafayette College and in 1918 he was promoted to the full professorship. In 1921 he was elected to the chairman of engineering. Three years later he became the Dean of Lafayette College. In the year of 1926-27 Mr. Prentice was acting president and received the M. A. degree in Education.

Dr. Prentice came to Rose in February, 1931, as president. In 1932 he was given the degree of LL. D. by Wabash College.

DONALD BISHOP PRENTICE

President and Professor of Economics of Engineering

Ph.B., 1910; M.E., 1914, Yale; M.A., 1927, Lafayette; LL.D., 1935, Wabash

Member of American Association of University Professors, American Society of Mechanical Engineers, Society for the Promotion of Engineering Education, American Academy of Political and Social Science, Fellow American Association for the Advancement of Science, Tau Beta Pi, Blue Key, Sigma Xi, Kappa Delta Rho, Book and Bond, and Kappa Phi Kappa.

DOCTOR JOHN WHITE

Vice-President of the Faculty
Professor of Chemical Engineering

B.S., 1888, Johns Hopkins University; A.M., 1891, Johns Hopkins University; Ph.D., 1891, Johns Hopkins University.

Fellow American Association for the Advancement of Science, Member of American Chemical Society, American Association of University Professors, Society for Promotion of Engineering Education, Indiana Academy of Science, American Association for the Advancement of Science, Sigma Xi, Alpha Chi Sigma, Beta Theta Pi.

PROFESSOR ROBERT L. MCCORMICK

Professor of Civil Engineering

B.S., 1891, Rose Polytechnic Institute; M.S., 1906, Rose Polytechnic Institute; C.E., 1907, Rose Polytechnic Institute.

Member of the American Society of Civil Engineers, American Association of University Professors, Society for the Promotion of Engineering Education, Indiana Engineering Society, Vice-President Indiana Engineering Society, Tau Beta Pi.

PROFESSOR CLARENCE C. KNIPMEYER

Professor of Electrical Engineering

B.S., 1907, University of Michigan

Member of the American Institute of Electrical Engineers, Society for the Promotion of Engineering Education, American Association of University Professors, American Association for the Advancement of Science, Indiana Academy of Science, Chairman Indiana State Board of Registration for Professional Engineers, Sigma Xi.

DOCTOR CLARENCE P. SOUSLEY

Professor of Mathematics

B.A., 1909, Kentucky Wesleyan College; A.M., 1909, Kentucky Wesleyan College; Ph.D., 1915, Johns Hopkins University

Gamma Alpha.
American Association of University Professors, Gamma Apha.

1935

PROFESSOR CARL WISCHMEYER

Secretary of the Faculty
Professor of Mechanical Engineering

B.S., 1906, Rose Polytechnic Institute; M.S., 1910, Rose Polytechnic Institute; M.E., 1920, Rose Polytechnic Institute

Member of the American Society of Mechanical Engineers, American Association of University Professors, Society for the Promotion of Engineering Education, Tau Beta Pi, Alpha Tau Omega.

BERTON ARTHUR HOWLETT

Profcssor of Physics

B.S., 1913, Vaparaiso University; A.B., 1914, Valparaiso University; M.S., 1917, University of Chicago; Ph.D., 1924, Indiana University

Member of the American Physical Society, American Optical Society, Association of American Physics Teachers, American Association for the Advancement of Science, American Association of University Professors, Fellow of the Indiana Academy of Science, Phi Beta Kappa, Sigma Xi.

ORION L. STOCK

Professor of Drawing and Descriptive Geometry

B.S. in Civil Engineering, 1908, Rose Polytechnic Institute; B.S. in Architecture, 1912, Rose Polytechnic Institute; M.S., 1914, Rose Polytechnic Institute

Member of the American Association of University Professors, Society for the Promotion of Engineering Education, Indiana Academy of Science, Theta Kappa Nu, Tau Beta Pi.

CAPTAIN JOSEPH H. STEVENSON

Professor of Military Science and Tactics

Captain, Corps of Engineers, United States Army, Member of Tau Nu Tau, Society of American Military Engineers.

ALFRED T. CHILD

Associate Professor of Chemical Engineering

A.B., 1898, Amherst College; A.M., 1900, Columbia University

Member of American Chemical Society, Indiana Academy of Science, Society for the Promotion of Engineering Education, Alpha Chi Sigma, Delta Upsilon.

* Roland Ellis Hutchins

Associate Professor of Civil Engineering

B.S., 1910, Brown University

Member of American Society of Civil Engineers, American Association of University Professors, Sigma Xi, Tau Beta Pi, Phi Gamma Delta.

* *On leave of absence with TVA, Knoxville, Tenn.*

George W. Greenleaf

Assistant Professor of Shop Management

Superintendent of Buildings and Grounds

Phil C. Brown

Director of Athletics

A.B., 1923, Butler University

Phi Delta Theta.

John L. Bloxsome

Librarian and Assistant Professor in English and History

A.B., 1927, DePauw University

Member of the American Association of University Professors, National Council of Teachers of English, Indiana Teachers of Speech, American Academy of Political and Social Science, Delta Upsilon.

Philip R. Garges

1st Lieutenant C. E. Corps of Engineers

U.S. Military Academy, 1924; C.E., 1926, Cornell University

Tau Nu Tau.

SYLVESTER KEARNS

Warrant Officer, U. S. A.

Instructor in Military Science and Tactics

Member of Fifth District Reserve Officers Association, Society of American Military Engineers, Ft. Harrison Post American Legion, George R. Spaulding Post V. F. W., Tau Nu Tau.

OSCAR L. RICHMOND

Instructor in Pattern Making

F. W. MOONEY

Instructor in Foundry and Machine Practice

HENRY C. GRAY

Instructor in Machine Design

B.S., 1917, Rose Polytechnic Institute

Member of American Society of Mechanical Engineers, American Association of University Professors, Society for the Promotion of Engineering Education, Tau Beta Pi.

HARVE N. CHINN

Instructor in Civil Engineering and Mathematics

B.S., 1923, Rose Polytechnic Institute

Member of American Association of University Professors, Society for the Promotion of Engineering Education, Tau Beta Pi.

HERMAN A. MOENCH

Instructor in Electrical Engineering

B.S., 1929, Rose Polytechnic Institute

Member of American Institute of Electrical Engineers, Institute of Radio Engineers, American Association of University Professors, Society for the Promotion of Engineering Education, Tau Beta Pi.

EDWIN WADE MANN

Instructor in Chemistry

B.Ch.E., 1918, Ohio State University; M.S., 1933, Ohio State University

Member of American Association of University Professors, Alpha Chi Sigma, Sigma Xi.

PAUL G. HOEL

Instructor in Mathematics

A.B., 1926, Luther College; A.M., 1929, University of Minnesota; Ph.D., 1933, University of Minnesota

Member of American Mathematical Society, American Association of University Professors.

THEODORE A. HUNTER

Instructor in Physics

B.S., 1923, University of Iowa; M.S., 1924, University of Iowa; E.E., 1931, University of Iowa

Member of American Physical Society, Institute of Radio Engineers, American Association of University Professors, American Association for the Advancement of Science, Sigma Xi, Kappa Eta Kappa.

1935

CHARLES E. PIETY

Instructor in Business Law

A.B., 1920, Wabash College; LL.B., 1923, Harvard Law School

Member of American Bar Association, Beta Theta Pi, Phi Beta Kappa.

FRED GENSCHMER

Instructor in Modern Languages

A.B., 1928, Lake Forest College; A.M., 1929, University of Wisconsin; Ph.D., 1934, University of Illinois

Member of American Association of University Professors, Modern Language Association of America.

H. L. WHITE

Instructor in Civil Engineering

B.S., 1932, Rose Polytechnic Institute

Associate Member American Society of Civil Engineers, Sigma Nu, Tau Beta Pi.

MARVIN E. HANSEL

Assistant in Shop Practice

BENJAMIN PINE

Bursar

B.S., 1903, Rose Polytechnic Institute

Alpha Tau Omega.

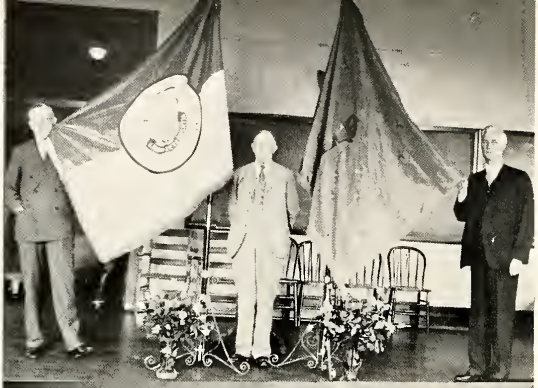
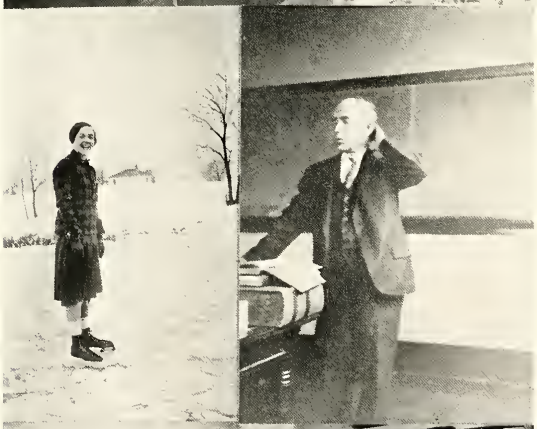
A.B., Wellesley College
Phi Beta Kappa.

HELEN ROEDEL
Assistant Librarian





Here and There among the Administration

Mr. Paul Bogart and President Prentice present the flags that Mrs. F. B. Stevens gave Rose in honor of Dr. White.

Show them how it is done, Doc. And do you recognize the man on skates as D. B.?

Then here is the Secretary to the President, Miss Helen Mahley, on the ice, also. "Alf the kid" is presented next for your inspection.

This picture of Miss Mary Gilbert, Registrar, is a reproduction of the prize winning snapshot in the Camera Club contest. Miss Helen Roedel, libararian, concludes this group.

CLASSES

SENIORS

THE CLASS OF 1935

Commencement is within sight, and we have stood the test, the "guinea pig" test. Our class has probably been the victim of more pronounced experimentation than any class in the history of the institution. During our four years, the curriculum was changed so that we took two courses in physics and calculus at the same time. We wonder how we survived! Just when we had learned to make a passing average under the old grading system, we were forcd to learn an entirely new one. Now, the "last straw," we were deprived of the last six weeks senior, thesis working time. But even so, we have emerged with no fewer than half of the original number who registerd in 1931.

Participation in all fields of extra-curricular activity has been well distributed. Among the things we accomplished was to revive the Junior Prom after a lapse of several years and to revive the Homecoming Dance after a lapse of one year. We regret to say that we were not able to defeat "Normal" while we were here, but we did give them a memorable hedge-apple battle last fall, and Rosie was not lost to the enemy camp.

It is with a mixed feeling of pleasure and regret that we leave Rose. We wish to express our deepest appreciation to Dr. Prentice, the faculty and the staff for their aid and sympathy in all of our problems. May all other classes enjoy their four years at Rose as greatly as we have.

'Tis hard to say "Good By" old Friend
On graduation day--
"Au Revoir" is a better word
And not so hard to say--
Where'ere we are, what'ere we do,
My heart will always be with you
On graduation day.

--G. G. HOLLOWAY

JUNIORS

CLASS OF 1936

The class of 1936 has only one more year at Rose.

The Junior Banquet and the Prom will long linger in our memories as among the most pleasant events of our sojourn at Rose. We look forward to even more enjoyable occasions next year.

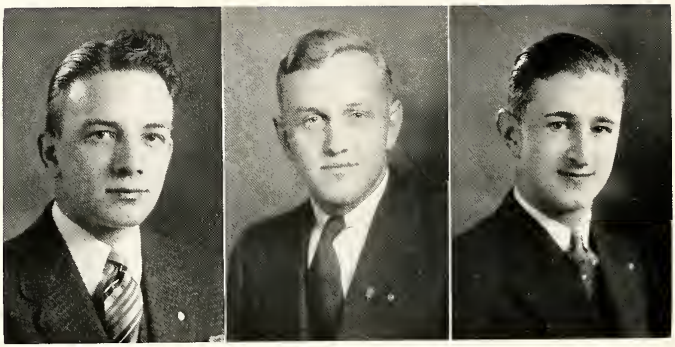
SOPHOMORES



CLASS OF 1937

We as sophomores believe that we have benefitted by attending Rose Polytechnic Institute for these two years, and our only regret is that these years have passed so rapidly. We now begin to realize that this college life does have an end, and we trust our preparation proves sufficient for our needs after it has terminated, even to giving us enough social life to make each of us a well balanced man.

We are all looking forward to two more years as full or fuller of new experiences than these first two.

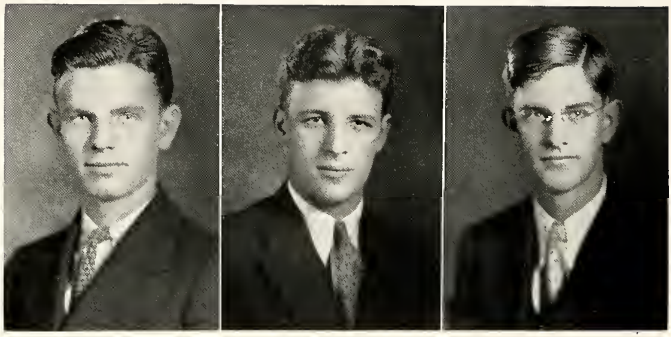
FRESHMEN



THE CLASS OF 1938

The present Freshman Class enrolled at Rose on September 11, 1934. The Blue Key treated the freshmen to a smoker on that same evening. The class then began work with an ability worthy of high consideration. This fact can be verified by asking almost any member of the faculty. A meeting was called by the Sophomore Class, and they instructed the freshmen in the care of "Rosie" and outlined certain rules for the freshmen to follow. The class then turned out in a body to clean and paint "Rosie." The mascot also was equipped with a new chassis. Then, after several protest meetings, we obtained a substantial decrease in the price of our hats, namely, from seventy-five to sixty-five cents. Several freshmen showed excellent ability in the different sports, and "Rosie" was defended victoriously in several battles. Mid-terms were successfully passed, and the Final Examinations were disposed of in a similar manner. All the social events of the season were well attended by the freshmen.

Row Two:—John J. Hager, General Manager of the Technic; Earle Butler, Financial Secretary '34-'35; Virgil Shaw, Editor-in-Chief of the Modulus; Bert L. Pearce, President of the Camera Club; A. Mewhinney, Financial Secretary '35-'36; Burril F. McIntyre, President of the Rifle Club.

Row Three:—John A. Straw, Representative of the Radio Club; Harry H. Richardson, President of the Glee Club; Gordon L. Burt, President of the Debate Club; Deforest W. Colburn, President of the Athletic Board.

STUDENT COUNCIL

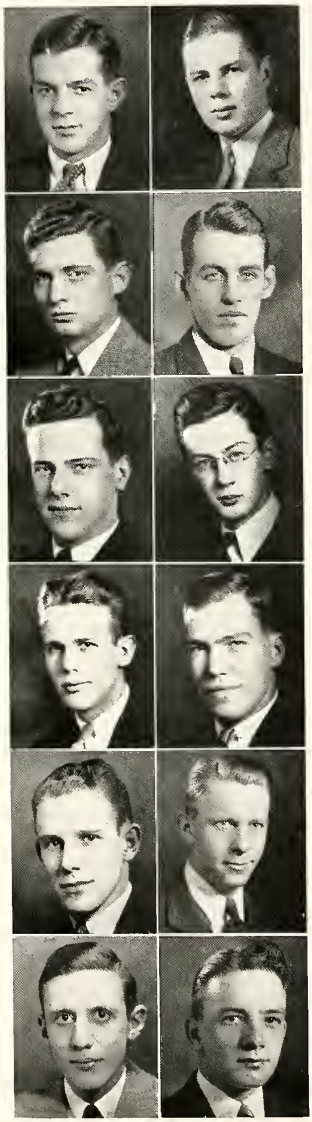
The membership of the Student Council consists of the presidents of the four classes, and one reresentative from each of the following student organizations: Rose Technic, Modulus, Camera Club, Rifle Club, Radio Club, Glee Club, Debate Club, Athletic Board and a financial secretary who is elected from the student body by the other members of the council.

In addition to its administrative functions, the Council sponsors the annual St. Pat's Dance which has become one of the traditions of Rose.

V. E. Shaw ..... *President*

Bert Pearce ..... *Viee-President*

Allan Greenland ..... *Recording Secretary*



ROSE HONOR MEN

The Student Council awards the Rose Honor Key to those students who have achieved outstanding recognition in diversified extra-curricular activities. Each student activity is rated in honor points, and if a man earns twenty of these points in one year or fifty in four years, he is eligible for a key.

HANDBOOK

Until 1931 the Students' Handbook was published by the Y. M. C. A. and usually appeared at the opening of the Fall term. Since then it has been issued by the Student Council which prepares it in June and mails it to prospective freshmen. This plan is much better because it enables the entering student to become somewhat familiar with the school and its rules before he arrives.

The purpose of the Handbook is to place before the students some of the customs and regulations of the Institute. While it is of great service to the new student, the upper classmen find it a handy reference book to which they have frequent occasion to refer.

The Handbook is one of the most serviceable publications of the Institute and well repays the time and money it costs.

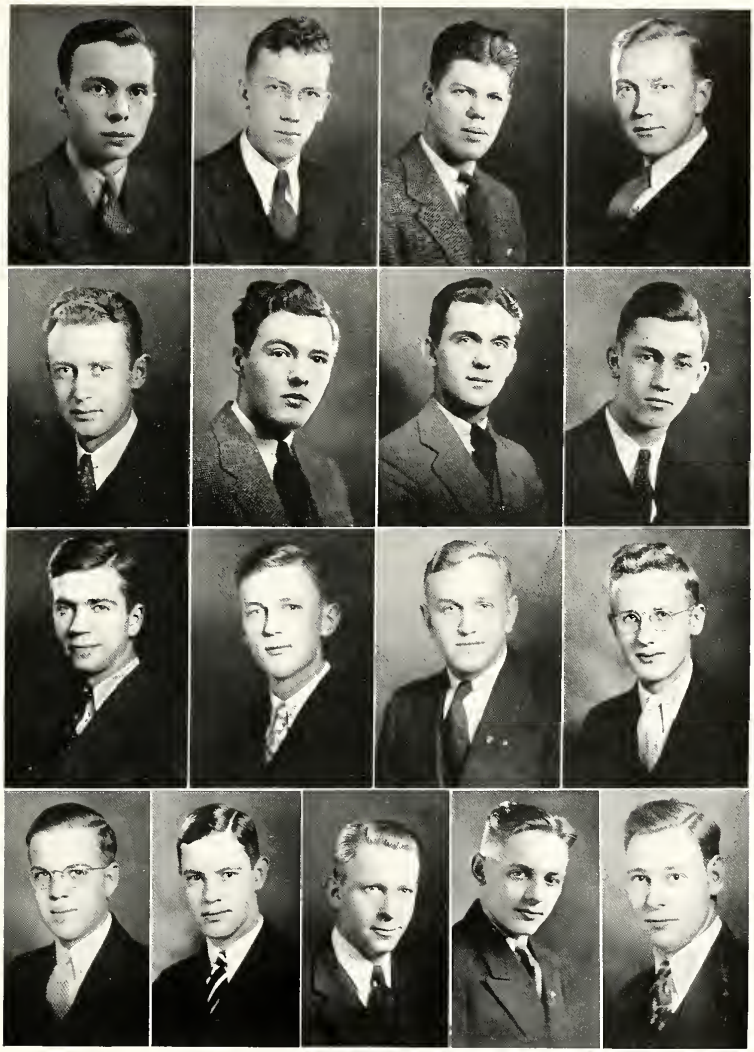
THE MODULUS

The "Modulus" is the year book of the Rose Polytechnic Institute. The first issue was published in 1892 by the senior class. From 1896 to 1928 issues were published by the Junior classes at irregular intervals. In 1931 the Student Council established a sinking fund, drew up a constitution, and definitely established the "Modulus" on a firm basis. It presents the most complete record of the school's activities to be had in a single volume. Professor Stock is the faculty advisor.



Row One: EMMET CODY, *Advertising Manager;* ROBERT SELF, *Campus Editor;* SAMUEL TAIT, *Athletic Editor;* LOUIS HECK, *Art Editor.*

ROSE TECHNIC

The Rose Technic is the official technical periodical of the students of Rose Polytechnic Institute. The Technic, founded in 1891, has had an unbroken history of progress. A few of the highlights of its development include: its admission to the Student Council in 1899, affiliation with Engineering Colleges Magazines Associated in 1921, and host to the Fourteenth Annual Convention of Engineering College Magazines Associated held at Rose on October 15-16, 1934.

This convention brought together representatives from the technical journals of the various engineering colleges of the country. To be chosen as host for such a convention is an honor which the Rose Technic is proud to have helped bring to Rose.

The Technic is of great importance because it offers to the student a medium for the publication of his own writings on technical subjects. This in itself is an invaluable aid to the student. In addition the Technic contains campus, sports, alumni, and humor departments—which provide information of school activities and entertainment.

It is with pride that the Technic points to the fact that, with only one or two exceptions, it has maintained an "A" rating as rated by the Engineering College Magazines Associated on all issues for four years. This is a record not surpassed by any magazine of the Association and equalled by only one or two others.

A. S. C. E.

The Rose Student Chapter of the American Society of Civil Engineers has enjoyed another successful year, making the fourteenth milestone in its history. The first meeting of the school year was merely for organizing. On October 22 the Chapter met at the home of Professor McCormick and, after a very excellent out-door luncheon, those present enjoyed an hour of story telling by Mac, Hutch and Harve. Then the members met inside Professor McCormick's house where a very interesting and educational lantern lecture was conducted on the construction of the Cascade Tunnel.

On November 5 our chapter met with that of the University of Illinois at Champaign-Urbana to hear an illustrated lecture on the construction of the Boulder Dam by Dr. J. L. Savage, Chief Designing Engineer of the United States Bureau of Reclamation. A farewell banquet was held in honor of Professor R. E. Hutchins at College Inn, December 18. All members expressed their regrets at seeing Professor Hutchins leave for Tennessee where he is now working in connection with the T. V. A. On February 12 there was a lecture on the construction of the Madden Dam delivered by Mr. Robert Laatz, Rose '32.

"The Construction of the Water Supply for Athens, Greece," was the subject of an extremely interesting lecture given by Mr. M. R. Keefe, Chief Engineer of the Indiana Highway Commission. The talk was given in conjunction with motion pictures depicting the progress of the undertaking.

A. V. McEowen ..... *President*
W. C. Eyke ..... *Secretary-Treasurer*
Byron Pearson ..... *Chairman, Entertainment Committee*
Professor R. L. McCormick ..... *Faculty Advisor —Member of National Student Chapter Committee*
J. T. Hallett ..... *Assistant Engineer Ind. State Highway Commission—Chapter Contact Member*

A. I. E. E.

In 1884 the American Institute of Electrical Engineers was founded for the "advancement of the theory and practice of the allied arts and sciences and the maintenance of a high professional standing among its members." There are now 113 student branches affiliated with the Institute. All Juniors and Seniors in the Electrical Engineering course are entitled to membership in the Student Branch at Rose.

Several interesting talks were given by both students and faculty members during the year. On April 13 the annual tri-school meeting was held at the University of Illinois. Illustrated lectures and demonstrations were given during the morning and a tour was made of the Engineering College exhibits in the afternoon.

OFFICERS:

B. F. McIntyre ..... *Chairman*
Paul Reedy ..... *Secretary-Treasurer*
Professor Knipmeyer ..... *Faculty Adviser*

A. S. M. E.

The Rose Student Branch of the American Society of Mechanical Engineers was organized in 1926. The members are Junior and Senior students in Mechanical Engineering.

Several interesting talks and moving pictures of engineering feats were presented for the benefit of the student body during the year. The students may well thank the A. S. M. E. for giving them such interesting programs.

OFFICERS:

Henry C. Gray ..... *Honorary Chairman*
John K. Loman ..... *Chairman*
C. C. Dierdorf ..... *Vice Chairman*
John A. Cushman, Jr. ..... *Treasurer*
J. C. Nelson ..... *Secretary*

CAMERA CLUB

Almost from the beginning of Rose there has existed a club interested in amateur photography. Professor Ames, Rose's first professor of drawing and design, was the prime mover in the organization of the Pyro Club. Professor John B. Peddle, then a student, became deeply interested and, later, throughout his thirty-five years as a member of the Faculty, was the advisor of students in matters along this line. Under his leadership the club was reorganized under the name of "Camera Club" in 1926. Henry C. Gray is now the faculty advisor.

With the growth of the Club the dark rooms also have been improved so that the members now have extremely good equipment at their disposal. During the past year a specially lighted bulletin board has been maintained upon which have been posted pictures made by members of the Club. Classes have also been organized and lessons given by E. Coons on how to take, develop, and print good pictures. These classes proved very popular and gave those participating a chance to learn a little about photography, a course which has never been included in the curriculum of Rose.

The Club rounded out a very successful year by sponsoring a contest open to members of the Faculty and student body.

OFFICERS:

Bert L. Pearce ..... *President*

Joseph B. Weaver ..... *Vice-President*

Neil A. Salisbury ..... *Secretary-Treasurer*

Edward A. Coons ..... *Storeroom Keeper*

DEBATE CLUB

The Rose Debate Club was organized in 1928 by Prof. John L. Bloxsome and has been under his direction ever since. The club enjoyed its usual success this past year.

The subject debated this year was "Resolved, That all collective bargaining be negotiated through non-company unions, safeguarded by law." This question was debated at the Tri-State Invitational Tournament held at DePauw on February 15 and 16, and again at the Fifth Annual Invitational Debate Tournament for colleges and universities held at Manchester College February 22 and 23. The same subject was used for the dual debates with Hanover, Evansville, and Oakland City.

The members of the teams this year are:

Affirmative: Hamilton, Shattuck, Sentman. *Alternate*, Duenweg.
Negative: Clausen, Coons, Burt. *Alternate*, Overholser.

Gordon L. Burt ..... *President*
Warren S. Sentman ..... *Secretary-Treasurer*
Prof. John L. Bloxsome ..... *Faculty Advisor*

GLEE CLUB

The Glee Club was very well received this year. It sang over Radio Station WBOW, before luncheon clubs, school organizations, and on church programs. The annual concert was held at the Centenary M. E. Church, April 28.

Miss Doroty McCullough was the guest soloist again this year. She is a talented coloratura soprano.

The Glee Club affords an opportunity to those students who like to sing and are willing to spend a few hours each week for practice.

HARRY RICHARDSON .....*President*
WARREN SENTMAN .....*Manager*

RADIO CLUB

The Radio Club has been quite active during the past year. Last fall it co-operated with the Wabash Valley Amateur Radio Association and held a radio hamfest convention at Rose on Saturday and Sunday, November 17-18. Several interesting talks were given, technical and non-technical by both students of Rose and members of the Amateur Association.

The club built a new crystal-controlled transmitter, using the following set-up: a 59 crystal oscillator, a 59 buffer and doubler, and a pair of 210's in push-pull in the final stage with about 60 watts input. The transmitter can be used on 80 or 40 meters, either crystal-controlled or self-excited. A new RME-9D all wave receiver was purchased.

The new transmitter is now on the air, located about one-quarter of a mile from the school in a shack across the campus. It is remotely controlled from the radio club room in the main building by means of a system of relays.

Next year the club plans to add one or two type 852 tubes to the transmitter. The power input would then be about 150 watts.

OFFICERS:

NELSON B. TRUSLER ..... *President*
ALBERT MEWHINNEY ..... *Vice-President*
JOHN STRAW ..... *Secretary-Treasurer*
DOCTOR B. A. HOWLETT ..... *Faculty Adviser*
MR. T. A. HUNTER ..... *Trustee*

RIFLE CLUB

The Rose Rifle Club was organized in 1914 to promote small bore rifle practice and to give the students and faculty a means of diversion during the winter months. Although the Club was much smaller this year than in previous years, it has had a very successful season.

A team was entered in the William Randolph Hearst Trophy Match, the Fifth Corps Area Intercollegiate match, and the Society of American Military Engineers match. A team also competed in shoulder-to-shoulder matches with the University of Illinois, Indiana University, and Washington University of St. Louis. Postal matches were held with several colleges and universities throughout the country.

At the end of the year medals and minor sports letters were awarded to team members and those men who shot consistently high scores throughout the year.

Lieutenant Garges has been acting coach during the illness of Warrant Officer Kearns.

OFFICERS:

BURRIL F. MCINTYRE ..... *President*
THOMAS WELLS ..... *Vice-President*
HAROLD REINTJES ..... *Secretary-Treasurer*
LIEUTENANT GARGES ..... *Faculty Advisor*
WARRANT OFFICER KEARNS ..... *Coach*

"WHEN ROSIE ROVES THE JUNGLE"

When Rosie roves the Jungle, her trumpetings resound,
The other animals are still, and tremor shakes the ground.
She walks her way triumphant, and all the people shout
"Make way for old Rose Poly, the Elephant is out!"

CHORUS

Sing, boys, sing! the team is on the field.
The ball's in play, our enemies must yield.
And when the game is over, you hear the loudest cheers
For Rosie and her playmates, the Poly Engineers.

When foemen came against us, our mascot to destroy,
We made a ring round Rosie, we pummelled 'em with joy.
So shall they ever find us, all ready to defend
The honor of Rose Poly, till mortal days shall end.

MILITARY BALL

The Rose Polytechnic Chapter of Tau Nu Tau military fraternity held its sixth annual Military Ball on November 8, at the Terre Haute Country Club following a formal dinner for members of Tau Nu Tau and their guests.

Music for the dance was furnished by Jack Crawford, the "Clown Prince of Music" and his orchestra. Mr. Crawford himself added much to the evening's gaiety with his clowning and impersonations.

BALL

This ball has become one of the outstanding social events at Rose.

GUESTS OF HONOR:

DR. AND MRS. DONALD B. PRENTICE

MAJOR AND MRS. C. C. KNIPMEYER

CAPTAIN AND MRS. ROLAND E. HUTCHINS

CAPTAIN JOSEPH H. STEVENSON

MISS HELEN MAHLEY

LIEUTENANT AND MRS. PHILLIP R. GARGES

THE JUNIOR PROM

This year has given us another Junior Prom which measured well up to our expectations, and we confidently expect that this will again become an annual affair at Rose. The dance this year was held at the Terre Haute Country Club which was decorated in the school colors and was a formal affair. Mat Matthews and his orchestra from the University of Illinois furnished the music. There was a large attendence of Rose alumni and students.

The chaperones for this dance were Doctor and Mrs. John White, Professor and Mrs. Knipmeyer, Professor and Mrs. Wischmeyer. The guests of honor were President and Mrs. Prentice, Mr. and Mrs. Paul N. Bogart, and Mr. and Mrs. Benjamin H. Pine.

ST. PAT'S DANCE

St. Pat's day is almost universally celebrated in Engineering colleges since, as we have been told, he was an engineer.

The anniversary was fittingly celebrated at Rose with the customary dance at the Trianon on March 16. Music was provided by Miller Welch and his WHAS orchestra.

As the evening progressed the Trianon took on the appearance of a snow-scene in mid-winter as everyone was generously sprinkled with confetti.

Faculty Guests Were:

Dr and Mrs. D. B. Prentice.

Dr. and Mrs. John White.

Professor and Mrs. Carl Wischmeyer.

MEET THE SENIORS

The man with tennis racket and straw hat would rather play tennis than work thesis. He lives in St. Mary-of-the-Woods so he must wear the latest thing in hats.

The wearer of the Blue bird badge worked very hard to obtain a Debate Key and Rose Honor Key that he might wear also.

Is the pony the mascot for its master's fraternity? He is president of it, you know.

This president's cat is not mascot of his fraternity, but could it belong to the girl on South Center Street?

The military suit is on the wrong fraternity president. He should loan it to the one sitting on the sled for they are both tall and slim. The loan of the sled in return would please him very much.

What would happen if this young man didn't have his NX—211 (the number given on the back of the snapshot), a V-8 or a couple of motorcycles to take apart?

If the picture of this handsome young man appears on this page where is the picture of ye editor.

HOME-COMING DANCE

An unusual amount of spirit was displayed with the revival of Home-Coming this year, held November 9. The day's program included a first class bonfire on the campus with hot-dogs and cider furnished by Tau Beta Pi. The occasion was appropriately climaxed with a dance at the Trianon in the evening sponsored by the Senior Class. The ballroom was well decorated with the school colors, rose colored elephants and rose and white balloons. The revelry reached its height upon the introduction of a large quantity of confetti. Orville Ray's Purdue Campus Orchestra furnished the dance music.

Guests of Honor:

Captain Joseph H. Stevenson.

Miss Helen Mahley.

BLUE KEY DANCE

The Blue Key Chapter at Rose has set as one of its tasks the completion of the school's new smoking room which has become very popular with the students. The proceeds of the Blue Key dance for the last two years have been donated for this purpose.

The Blue Key dances have met with gratifying success and will probably become an annual affair. May it always meet the same favor from the student body and continue to be an aid to making social life more attractive at Rose.

The dance was held in the school gymnasium on the evening of March 1, with Leo Baxter's orchestra furnishing the music. Decorations were quite elaborate and carried out in the school colors. The lights were dimmed and decorated in blue, the color of the Blue Key fraternity.

HERE AND THERE

Rosie lost her coat of dirt in favor of a coat of paint, and the symbol of a great class finally reached her forehead.

Those Senior Mechanicals will do anything, even place their class chairs on the roof of Hank's office. The freshmen learn the principle of a concrete thesis early—make and destroy.

There had to be a picture of a boiler test group as well as one about home-coming.

C. Cromwell, Sears, and Stineman, spent a day trying to find something with this apparatus, but who knows what it was. Burt and Shaw helped fill space. Do you suppose the group of seniors could have gathered on the front steps between classes or was it just a lab period?

A class under the trees now and then helps you enjoy school.

Some of the senior military men in this parade helped rip Serban's cords into shreds.

TAU BETA PI DANCE

The first of the spring dances of the year was sponsored by Tau Beta Pi and held in the Gym on April 12th. Gene Kellams and his orchestra furnished excellent music for an evening of dancing. The dance was given to satsfy need for an all-school dance between St. Pat's Day and the Junior Prom and to encourage reasonably priced school dances. By popular expression the dance was proclaimed a success and it is hoped that it will become traditional.

The Bridge to the Athletic Field

ANYWHERE

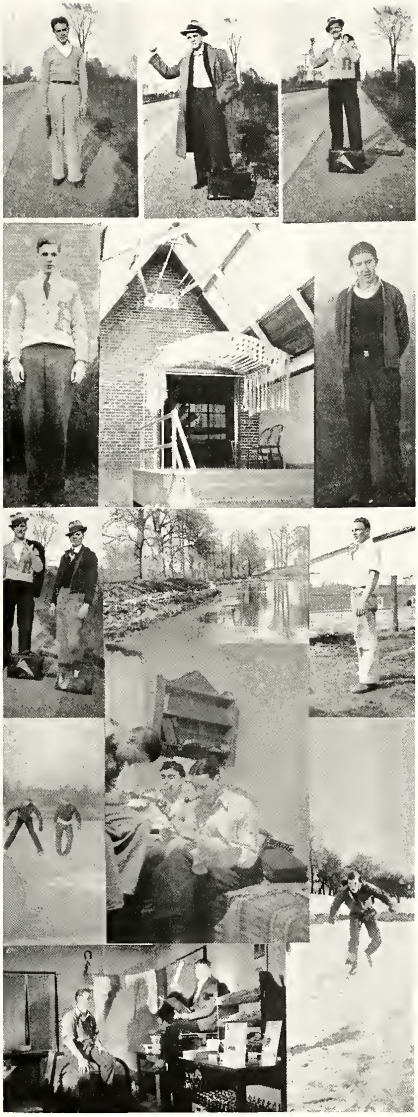
Skippy is on his way to College Inn, but Pratt and McIntyre would like a ride to Brazil.

In case you don't know these fellows, they are Wiles and Spain. The center picture shows the entrance to the gym on the day of the Tau Beta Pi dance.

It looks as though Siegelin stepped into one of the pictures shown above. The picture of Dierdorf is next to the reproduction of the snapshot that won second prize in the Camera Club contest.

Newton and Van Treese look like they might have just learned to ice skate, but they were only clowning. Do you suppose Wells, Foley, and Cantwell are always this studious? The next picture might be captioned "Bull on ice skates."

Myers must be trying to keep Montgomery out of the store supplies at the dorm by use of a slide rule, or is it a lecture?



IN MEMORIAM

MR. FREDERICK H. HOPKINS

Through his untiring efforts, Mr. Hopkins has placed Deming Hall in a beautiful setting materially. He is responsible for the landscaping of the terraced lawn in front of the dormitory and the lawn leading down to and bordering the little lake. The beautiful little garden to the west of the dormitory is also one of his many beautifying projects. He has done much to improve the drives and walks approaching the dormitory.

"Gov," as Mr. Hopkins has always been known to the Rose students, was always a gentleman and a perfect host. The boys at the dormitory could always depend upon him for friendly advice and helpful suggestions. In this way the feeling existing between him and the boys was like that between father and son. His kindly acts of employing students in the dormitory have helped many of them through Rose.

Mr. Hopkins was a most admirable character. He was earnest, sincere, and thorough in all that he did. His quiet and unassuming nature inspired confidence and won for him the esteem of his associates, who found in him a wise counsellor and a loyal, sympathetic friend.

DEMING HALL

With the close of this semester the Rose Dormitory, Deming Hall will have completed its ninth year. When it first opened there was introduced a form of self government which has been in operation ever since, proving that students are capable of working together harmoniously and successfully under an honor system.

Although we of the Dormitory do not feel that we have made any great progress in making friends with neighboring colleges this year (Normal), we hope that in the near future we shall be able to remedy this fault. Thrills and good times have been had in plenty during the past year and it is with regret that we come to its close.

Mr. Kerr was president of the Dormitory Association for the first term of this year and was succeeded by Mr. Mann for the second term.

To accept good advice is but to increase one's own ability.

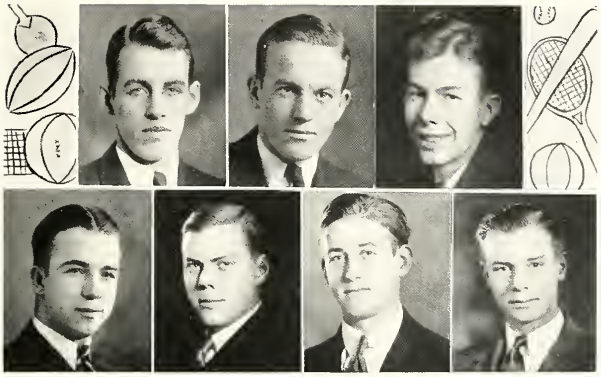
ATHLETICS



1st Row—DEFOREST COLBURN, JAMES HUFFORD, ROBERT AVERITT
2nd Row—LOUIS LYON, EDWARD LEEVER, ALECHI GARZOLINI, CLEMENS LUNDGREN

ATHLETIC BOARD

The athletic board consists of two members from each of the four classes in school. It is responsible for the student administration of athletics at Rose. It has general control over all sports and is entrusted with the care of the athletic grounds and equipment. Upon the recommendation of the coach of athletics letters and sweaters are awarded by this board.

DEFOREST W. COLBURN ..... *President*

CHARLES E. CANTWELL ..... *Secretary*

COACH

Phil Brown, better known to all the students as "Coach" graduated from Butler College in 1923, where he was active in three major sports. He was a star at Butler as a tackle, and football was and still is his favorite sport.

After graduating from Butler he took up the position as coach at the Marshall, Illinois, high school. From there he went to Portland, Oregon, where he was connected with the Multnomah Athletic Club. He then went to Washington College at Chesterton, Maryland as head coach of football.

In 1928 Coach came to Rose Poly. It was a tough grind for the new coach to start building up a team from the material at his disposal, but he succeeded. In 1930 he turned a winning combination that was listed in national papers as being one of the 17 unbeaten and untied teams in the country. To make the year a success Coach was given the honor of being one of the "All American Coaches of that year."

During the last four years the material on hand has been very limited. This, along with the fact that he has to build up a new team each year, has made it impossible to develop winning teams, but the teams that he puts on the field have always lived up to the title of the "Fighting Engineers."

Brown is one of the few coaches in the country that has the ability to give to his men the style of play best fitted for them. Although he modestly gives credit for the games won almost entirely to the material at his disposal, it is very evident that a man of great will and strength of purpose is necessary to keep such a small squad from moral disintegration.

Coach Brown is appreciated and respected by all those who serve under him. He is a leader, and yet, the servant of all the students. The student body at Rose Poly feels proud to be able to call him their "Coach."

FOOTBALL

At the beginning of the football season Coach Brown faced the problem of building up a team out of green material. After a great deal of shifting and experimenting with the men, he picked the best combination. The team was the smallest and lightest weight in the history of Rose but made up for this handicap in part by their never-say-die spirit. Outweighted by their opponents in every game, they lived up to their name of Fighting Engineers. The team made a good showing in every game. But while they played their opponents off their feet in the first half of nearly every game, superior weight wore them down.

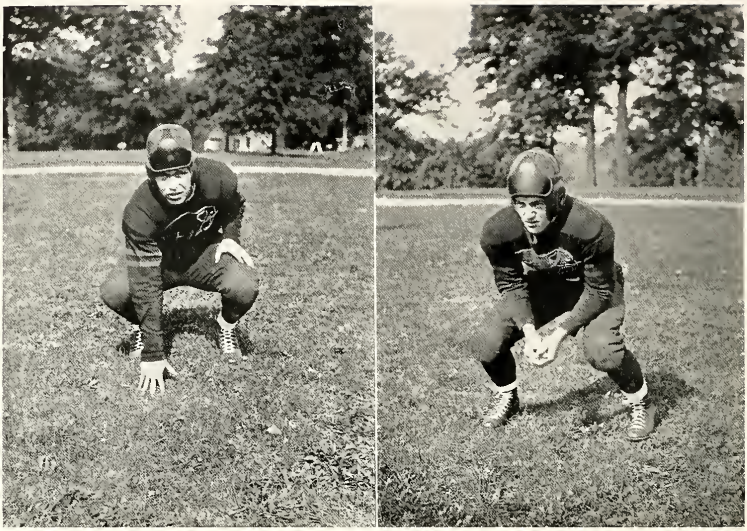
The scores for the season fail to reveal the consistently fine game the team played. Great credit is due the men and we are proud of the work they did.

1934 Football Schedule and Results

Sept. 29 — At Franklin	Franklin	18	Rose	6
Oct. 6 — At St. Joseph	St. Joseph	7	Rose	14
Oct. 15 — At Stadium	Indiana State	31	Rose	0
Oct. 20 — At Wabash	Wabash	25	Rose	0
Oct. 27 — At Rose Poly	Evansville	25	Rose	7
Nov. 3 — At Rose Poly	Earlham	6	Rose	0
Nov. 9 — At Rose Poly	Oakland City	13	Rose	15
Nov. 29 — At Millikin	Millikin	62	Rose	6

The seniors who played their last game for Rose are Captain Richardson, Bard, Colburn, Eyke, Hoffman, Lyon, Presnal and Tucker. These men have all done their best for Rose Poly and the team will suffer tremendously in their loss.

The team is on the upward trend and during the next two years should be among the leaders. It deserves the support of the student body in the coming season. We hope that our teams in the future may defend Rose, in the same sportsmanlike manner that this year's team has done. So let's go, gang, let's see what we can do.



CAPTAIN HARRY RICHARDSON

Halfback

"Bull" was the field general of the fighting Engineers. For four years Richardson has been an outstanding man on the Rose football team. He is a natural player and because of his general all-around value to the team, he proved to be a very excellent leader. Bull had determination and spirit, and was full of fight and very aggressive. He was noted as the triple threat man of the team. Captain Richardson will be missed by the team and it will be almost impossible to find a man to take his place. Harry earned four letters in football.

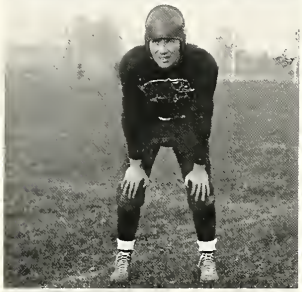
CAPTAIN-ELECT JAMES HUFFORD

Quarterback

Jim is the best quarterback Rose has seen in years. He has always been a steady, reliable man at this position, and his quality of dependability should make him an excellent leader. He was always in the thick of battle and has the never-say-die spirit. Jim will make a good captain.

ALBERT BARD
Quarterback

Al played a smart game at this position and used real head work in directing the team. Bard is a graduating letterman.



JAMES CAMPBELL
Halfback

Jim playing his third year on the Rose football team ploved to be a perfect running mate for Richardson. Although "Scotty" found it hard to remember plays, he did not forget the important ones. He could be depended upon for a few needed yards, and was also found useful in the services of a punter.

DEFOREST COLBURN
Guard

Ace could play any position in the line. He was not able to show his stuff to any great extent this season on account of injuries. But a little thing like injuries couldn't keep him on the bench. He was always up and ready to go full of fight.

WILLIAM EYKE
Tackle

Bill a senior, was a quiet and unassuming player and seldom got all the credit due him. He did not know the meaning of the word quit.

JOHN FOX
Fullback

Johnny was a hard hitting, plunging fullback who did much to make the season a success. He was one of the most popular men on the squad, well liked by everybody. The offensive was the department of the game in which he showed up most brilliantly. We are expecting great things from John in his next two years.

FOOTBALL

Franklin 18 ——— Rose Poly 6

Rose tasted its first defeat at the hands of Franklin College on Sept. 29 at Franklin. The Engineers made the Franklin fight hard for every point that they got. In the first half it appeared that Rose might have the edge over Franklin, but during the second half the difference in poundage began to tell on the light Rose Poly machine and they were finally penetrated for two scores. Captain Harry Richardson was the star of the Rose crew, backing up the line in great style and gaining his share of yardage.

St. Joseph 7 ——— Rose Poly 14

The next week Rose redeemed this loss by defeating St. Joseph College at Collegeville, Indiana. Although Rose did not play their best brand of football, they proved too strong for St. Joseph. The Fighting Engineers showed superiority in every department of the game. The Engineers scored their first touch down as a result of a pass from Richardson to Fox which placed the ball on St. Joseph's 6 yard line. On the next play Richardson crashed off of right tackle for a touchdown. His kick for the extra point was good. Early in the fourth quarter after a series of plunges by Richardson, Campbell, and Hufford, Rose brought the ball up to the 5 yard line. Richardson again went off of right tackle for a score. His extra point kick was again good.

St. Joseph scored in the closing minutes of the game after a pass of 35 yeards was knocked into the hands of their men by a Rose halfback.

Indiana State 31 ——— Rose Poly 0

Once again we stacked up against our ancient enemy in football and again Rose failed to overcome the Normal jinx when they lost by a score of 31 - 0. The Engineers played good ball but could not stop Bush, the star of the State outfit. The first quarter was a nip and tuck battle with Rose having the edge. But superior weight and Cocky Bush's leadership began to tell on the Fighting Engineers. The Engineers battled valiently throughout the game. Every man put his best into the fight, and the Rose Poly students only wish for another crack at Indiana State to show that the breaks can't always fall the same way. The state students found out that the Rose Poly fellows were small but mighty tough.

CHARLES FULLER

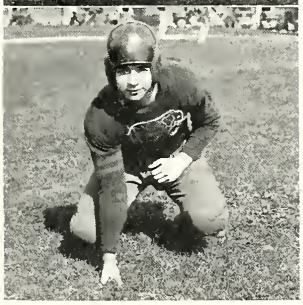
Guard

Possessing the build of a good football lineman, Charlie made his first appearance in a Rose football uniform last fall. Considering past experience, Fuller will no doubt be among the men used in building up the line for next year's squad.

RAYMOND LAUGHLIN

End

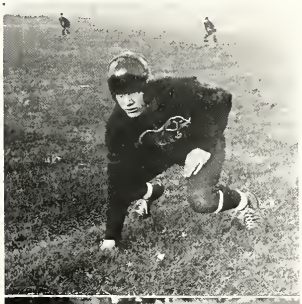
Playing at left end Ray was a real threat to opposing teams. He overcame a slight disadvantage in weight by his determination and endurance.



LOUIS LYONS

Guard

Lyons played his last year of football for Rose Poly. He has played in the line for the last two years, and was always depended on to do well at either guard or tackle. The team next year will miss Louie on the line.



PAUL PRESNELL

Tackle

Paul playing his last year on the varsity might be classed as a utility man for the first part of the season. He was used at both guards and tackles. Finally he settled down at a tackle position for the rest of the season.

SAM TAIT

End

Sam held down the right side of the line for Rose Poly. He is a fast rangy man, built perfectly for an end, and his playing during the past season proclaims the fact that he will be valuable to the squad next year. He was good on defensive football and also had an attraction for the ball when a pass was called.

WABASH 25 ——— ROSE POLY 0

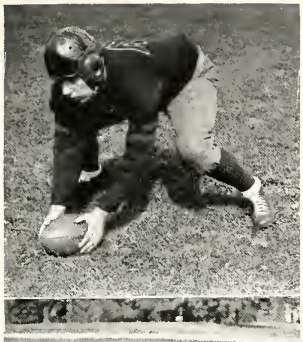
Playing against the superior playing of the Wabash "Little Giants" Rose was forced to taste a defeat by a score of 25 - 0. The Engineers again played a very keen brand of football during the first half and held the Little Giants scoreless till almost the last minute of play when Wabash finally was able to force the Engineers back for a score. It was a tough game and the Engineers deserve more credit than the score indicates. The Wabash secondary was very much bewildered as the Rose passing attack with Captain Richardson on the throwing end and Wodica and Tait on the receiving end, worked to perfection. Regardless of the small number of Engineer reserves, Rose fought the entire game and kept the Wabash scores well scattered throughout the game.

EVANSVILLE 25 ——— ROSE POLY 7

Rose Poly lost to an apparently weaker team although the score does not indicate that fact. The defeat was caused by three blocked punts. The Engineers played superior ball throughout the whole game. The Rose machine broke into the scoring column in the first quarter when Captain Richardson went off right tackle for a beautiful run of 60 yards. The captain then converted with a perfect place kick. Midway during the second half the purple aces recovered a Rose fumble and promptly took advantage of the opportunity by scoring. However in the third quarter the Purple Aces blocked three punts and promptly converted them into touchdowns. Campbell and Hufford played a very nice game for Rose Poly. Colburn, Rose left guard who had entered the game with a broken hand, received a broken nose during the fourth quarter of the game. He deserves a lot of credit for fighting as he did while injured.

EARLHAM 6 ——— ROSE POLY 0

The Fighting Engineers lost a bitter struggle to the Quakers by a score of 6 - 0. The tilt was fought in a driving rain and, needless to say many fumbles occurred. The Engineers made their most serious scoring threat in the first quarter when a fumble was recovered by Tait on Earlham's 27 yard mark. Hufford skirted the left end for 15 yards but the Rose Poly team was penalized 15 yards. This however did not dampen the spirits of the Rose team. With Campbell and Hufford bucking the line they again brought the ball up to Earlham's 3 yard line. The Quakers



NORMAN TUCKER

Center

The center of the Rose team was stabilized by the husky Tucker who played the entire season in that position. The experience he gained in the season of '33 made him more efficient while his size proved helpful in repelling line plunges.

HARLAND VONDERSAAR

Tackle

Van playing his first year on the varsity made a remarkable showing. Because of his sturdiness and experience on the line, he fitted into that position very well, and will prove increasingly valuable with the three years yet to come.

EDWARD WODICKA

End

With a years' experience behind him Ed. had little trouble in fitting into the daily routine of the varsity squad. He is a quiet, modest, fellow, but he could always be depended upon to come through on receiving passes. Ed. has two more years yet to serve in football for the school.

FREDDY WILES

Manager

Fred was a hard worker; the team never had to want when Fred was around. He was a good manager and will be missed.

SPAIN AND WALKER

Assistant Managers

Dick and Joe will take up the responsibility of managing the team next year. There is no doubt that these two fellows will do their job well.

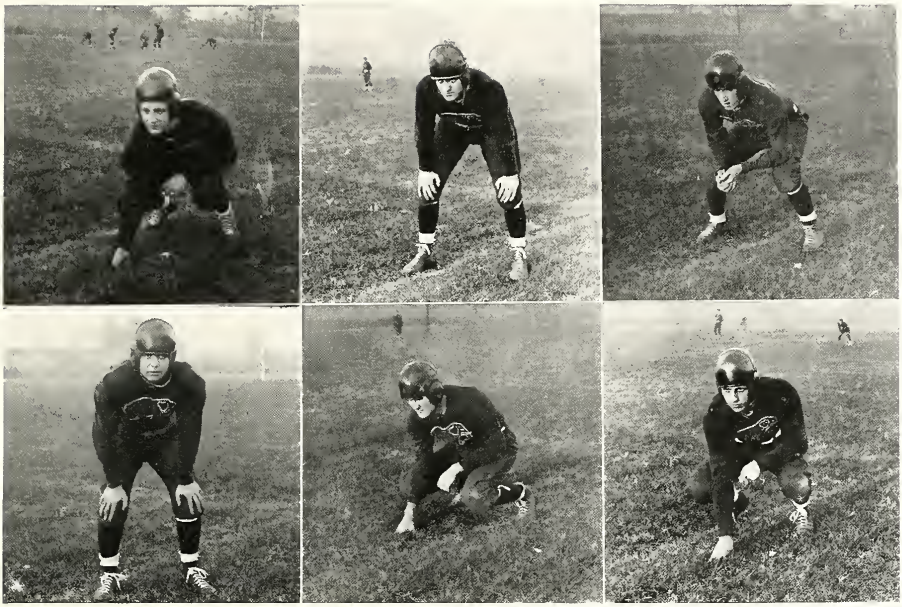
at this point held Rose for no gain and took possession of the ball. In the third quarter with only a few minutes to play Earlham scored on a brillant run by Hall. halfback, who dashed 30 yards for the lone score of the game. The whole game was a punting duel between Campbell of Rose and Popovec of Earlham. Rose played without the services of their Captain, who was held on the side lines because of injuries. In the line Colburn and Tait played a bang up game.

Oakland City 13 ——— Rose Poly 15

The Rose Poly football team made a perfect day for the homecoming crowd by defeating Oakland City College in a very thrilling game. The Engineers played the better brand of ball throughout the whole game. Both teams opened their bag of tricks early in the game and it consequently proved to be a very exciting exhibition. In the first quarter Rose promptly took the ball down to the Oakland City 20 yard line. At this point, however, the scrappy Oakland City gang held. But Richardson dropped back to the thirty yard line and with Hufford holding the ball kicked the ball cleanly between the uprights. In the second quarter Richardson threw a pass to Hufford who ran 20 yards for a touchdown. Richardson kicked the extra point. However, Oakland City caught Rose off of balance and scored two touchdowns by two long runs by Vire, quarterback of Oakland City. It was at this point that the Fighting Engineers lived up to their name by coming back with a drive which started from their own 30 yard line and ended up in a touchdown when a pass from Richardson to Campbell resulted in a score. Because of a penalty the Engineers were compelled to play on the defense during the better part of the second half, and many times they took the ball deep down into the Oakland territory only to lose it on downs. The line deserves a great deal of credit for their playing as they stopped the plays of Oakland City many times before they could develop.

James Millikin 62 ——— Rose Poly 6

The least said about this game the better. Playing against a far superior team the Rose Poly team had no chance. However Captain Harry Richardson gave the Engineers something to cheer about when he plucked a Millikin pass out of the air on his own 15 yard line and scooted 85 yards for a touchdown. It was the longest run of the game and the most thrilling to watch.



NON LETTERMEN

First Row: Jack West, End; James Hughes, End; Harry Garmong, Halfback.

Second Row: Carl Ostlund, Guard; Chester Sears, Tackle; Warren Sentman, Halfback.

Not in Pictures: James Hoffman, Guard; George Neyhouse, Halfback; Ralph White, End; Jack Shake, Guard; Max Stanfield, Fullback; Albert James, Guard.

Much credit is due the above men who, although they did not make their letters, practiced regularly for the entire season. These men took the beating and the punishment from the first string men and deserve more recognition and commendation than they received. They made possible scrimmages and squad drills, so essential in developing a team. However, since most of them are underclassmen they did not work in vain for they will in all probability be the lettermen next year. It is men like these that make a team what it is.

ROSE POLY TENNIS TEAM

This is the second year that Rose Poly has had a varsity tennis team. This sport has proven to be very popular with the student body. It is expected that the team will come through with flying colors as the whole team is composed of veterans from last season.

The team is composed of the following men: Captain Straw, Montgomery, Myers, Presnal, Mewhinney, and Richardson.

To date the tennis team has had two matches but from the results of these we predict that the team will perform in a very satisfactory manner.

1935 Schedule

April 29 — 5 DePauw vs 2 Rose — Here.
May 10 — 0 Oakland City vs 8 Rose — Here.
May 14 — Indiana State vs Rose—There.
May 17 — Eastern Illinois vs Rose — Here.

INTRAMURALS

For the past few years intramural activities have been very popular with the students at Rose since it gives every man a chance to participate in some athletic activity. It has been Coach Brown's objective that every student should leave the school not only with a diploma but with a medal.

INTRAMURAL BASKETBALL

This year there have been five teams in the league, one representing each department in the school. The team representing the Military department won the regular league tournament while the Electricals won the "survival of the toughest" tournament. In the playoff the Military Team won the championship of the school.

League Standings

Team	*Won*	*Lost*	*Pct.*
Military	4	0	1.000
Chemical	5	2	.715
Mechanical	6	4	.600
Civil	4	3	.572
Electrical	0	11	.000

The members of the Military Team are as follows: H. Richardson, F. H. Richardson, E. Butler, N. Cromwell, A. Hess, W. Creal, L. Duenweg, W. Kasameyer.

INTRAMURAL BASEBALL

Baseball is the most interesting sport in the spring. It gives every man in the school a chance to get out of doors and engage in friendly competition with rival departments. This year only three departments are represented: The Civil, The Chemical, and the Mechanical. The fellows enjoy this sport very much and the outcome of any game is never determined till the last man has been put out. Of course the number of errors made by any team is not put on the books as it is these errors that make the game that much more interesting.

At the time of this writing the Civils were leading the pack. However, before the season ends each team in the league will most likely have occupied the first place position.

INTRAMURAL TENNIS

Intramural tennis is for the benefit of the men who cannot make the varsity tennis team. At the time of this writing, the tournament has just started and the outcome is impossible to predict. Nearly every man in the school enters the tournament and the competition is very intense.

INTRAMURAL TRACK

Every year the annual intramural track meet is held between departments. The mechanicals are the defending champions. Every man in the school is eligible to enter any event, in fact if he is able, he can enter all the events. The list of events to be held are as follows: 100 yard dash; 220 yard dash; 120 yard low hurdles; high jump; broad jump; shotput; javelin; discus; 440 yard relay; and the 880 yard relay. The first, second, and third place winners of each event will be awarded gold, silver, and bronze medals.

PINGPONG TOURNAMENT

To keep up with the rage of the year the Rose Tech Bookshop sponsored a pingpong tournament. Competition was very keen in both the singles and the doubles and the men who won well deserve the honor as school champs. Lewis Wright, a freshman, win the singles, and Charles Rich teamed with Robert Sears to win the doubles.

"The reward of a thing well done is to have done it."

2nd Row—Ernest Welsh, ATΩ; Earle Butler, ΣN; John Fuller, ΘKN; Albert Bard, ΘΣ.

INTERFRATERNITY COUNCIL

The Interfraternity Council is composed of two members from each of the four social fraternities at Rose, chosen by their respective fraternities at the beginning of each year.

Since it was felt that a new rushing system was needed at Rose the old rules were revised by the Council and put into effect just previous to the last rushing season, the important innovations being a preferential bidding system and a quota for each of the four fraternities.

The officers of the Interfraternity Council are chosen by lot.

John J. Fuller ..... *President*
Albert L. Bard ..... *Secretary*
Donald B. Prentice ..... *Faculty Advisor*

ALPHA TAU OMEGA

Alpha Tau Omega Fraternity was founded at Richmond, Virginia, in 1865 by Otis Allen Glazebrook, Alfred Marshall, and Erskine Mayo Ross. Gamma Gamma Chapter was installed at Rose in 1893. There are now 96 chapters of Alpha Tau Omega.

1st row—Robert Asbury, John Bradley, Gordon Burt, Norman Cromwell, John Cushman, William Eyke, John Hager.

2nd row—Russell Kerr, Louis Lyon, Bert Pearce, Virgil Shaw, John Welsh, Carroll Merriman, Harry Garmong.

3rd row—Francis Blair, William Creal, Louis Duenweg, James Hufford, William Kasameyer, Raymond Laughlin, Edward Leever.

4th row—Paul McKee, Albert Mewhinney, Daniel Overholser, Neil Salisbury, Robert Shattuck, Joseph Walker, Robert Averitt.

5th row—Oscar Brosey, Edward Coons, Clyde Cromwell, Earl Cromwell, Paul Giffel, Charles Rich, Robert Sears.

6th row—Walter Snedeker, John Stineman, Warren Tappan, Carl Wischmeyer, Kenneth Buis, Wendell Carroll, Conrad Clausen.

7th row—Richard Dennis, Allen Greenland, Russell Hammerling, John Hunter, Clemens Lundgren, Allen T. Merrill, Robert Pearce.

8th row—Adam Romeiser, Merton Scharenberg, Robert Trueb, Charles Van Treese, Gail Wright, Lewis Wright, Norman Wittenbrock.

My Normal correspondent reports that one of the leading fraternities has a mongrel (dog) by the name of Narcissus Carpenter Heinz. The strange title given to the pootch is explained as follows:

The first name, Narcissus, is to denote its sex, as he is a she. The second, Carpenter, is appropriate because the dog does odd jobs around the house; while Heinz is to denote the fact that his parents were of 57 varieties.

——o——

I couldn't help repeating this riddle told by one of the faculty:

"What animal goes 'ninety-nine, clippety-clop-ninety-nine clippety-clop-'?"

The answer is, of course, a centipede with a wooden leg.

R. O. T. C. INSPECTOR—

"Now, suppose you are on duty one dark night—suddenly a person appears from behind and wraps two arms around you so that you cannot use your rifle. What would you do?"

BULL RICHARDSON—

"I'd say, 'Let go, honey'."

Last summer Bob Asbury worked for an old man who kept a second-hand clothing store. The man could not write, so he marked his price tags by making pencil dots on them, each dot representing one dollar. One day he attached a tag to a suit of clothes and put three dots on the tag. While he was out of the store the next day, Bob sold the suit. When the old man came back he missed the suit and asked:

"Bobbie, where is dot zooot of clouthes?"

"I sold it, sir."

"God boy, and for it how much did you get?"

"Nine dollars."

"Nine dollars! Dot is umpossible!" exclaimed the merchant. "Kvick, lemme see dot tag mit der price!"

Bob found the tag and handed it to the old man, who gazed at it for several moments, and then raising his eyes upward, exclaimed:

"Gott bless dot leetle fly!"

Colburn: "For two cents I'd knock your block off!"

Hess: "Get away from me you dirty professional."

——o——

The Juniors were surprised to find as questions on one of their midterms the following questions:

1. How does a vacuum tube?

2. Draw a representative sketch of a freckle-phase motor.

——o——

Many in the audience said that the glee club was under the influence of Victor Herbert when they rendered their last concert. The janitor however claims that he has proof that it was Pabsts, since he saw the bottles.

Cody: "You say you want to reduce? Why don't you try golf?"

McKee: "I tried that once, but it's no good. When I put the ball where I can see it I can't hit it and when I put it where I can hit it I can't see it."

——o——

It has been rumored that Tait, the pitcher for the civil base-ball team is very unscrupulous. It is claimed that he pitches underhand.

——o——

That "man-about-town" Terhorst said that one of the recent stage shows advertised a chorus of seventy but that some of them didn't look to be a day over sixty-five.

——o——

To improve the quality of this humor section it was suggested to me that it might not be a bad idea for me to eat cream of wit for break fast.

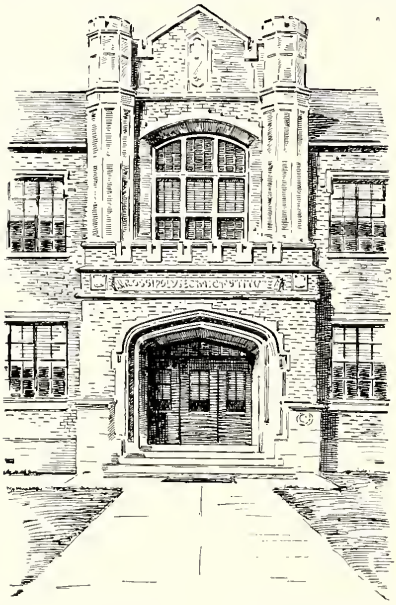
MONEY FOR YOUR HOME — A HOME FOR YOUR MONEY



Professor Bloxsome asigned a written theme to the sophomores that was to be at least five pages in length. One brilliant (?) soph turned in a paper with numerous passages like:

"Did you hear him?"
"I did."
"Indeed?"
"Yes."
"Where?"
"In the garden."
"When?"
"Monday."
"Then he is alive?"
"He is."
"Ah."

Bloxsome to put a stop to such practices, sent for the Scintillating soph and informed him that in the future he would be graded on a basis of the number of letters in his themes. Not to be outdone by a mere member of the faculty, the second year man in his very next composition introduced a character who stuttered. As
